CHECKLISTS

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. All such publications are included also in the classified section and indexed in the author and subject indexes.

U. S. D. A. PUBLICATIONS

Periodicals issued by the Department are listed in the November issue only; articles in them are indexed currently.

Domestic requests for publications in the various Department series will be filled free to libraries upon application to the Office of Information, United States Department of Agriculture, Washington 25, D. C., as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington 25, D. C.

Bureau publications may ordinarily be obtained free of charge from the issuing bureau as long as the supply lasts.

Foreign institutions, organizations and agencies which issue publications may obtain United States Department of Agriculture publications in exchange by writing to the United States Department of Agriculture Library, Washington 25, D. C.

The subject index for volume 25 of the Bibliography of Agriculture will appear as number 12 of volume 25, the issue of December 1961.

Abbreviations used in this publication are from the United States Department of Agriculture Miscellaneous Publication 765, List of Serials Currently Received in the Library of the United States Department of Agriculture as of July 1, 1957.

Call numbers following the citations are those of the United States Department of Agriculture Library. Please use them when requesting publications on loan from the Library. Publications are loaned only to employees of the Department and to other libraries. Periodicals, foreign statistical publications, and rare books will not be loaned out-of-town.

Except for printed publications of the Department of Agriculture which are usually available in limited supply for free distribution, the publications listed herein are not available for free distribution from the Department. However, a photoprint or microfilm copy of most publications listed may be obtained from the Library. Copying charges for each periodical article or book are:

PHOTOPRINTS:
$1.00 for each 4 pages or fraction copied from a single article or book.

MICROFILMS:
$1.00 for each 30 pages or fraction copied from a single article or book.

RUSH SERVICE will be furnished upon payment of $1.00 additional for each order.

PAYMENT must accompany the order. Only Federal agencies are exempt. Cash, USDA Library Coupons (obtainable from this Library at $1.00 each), check or money order drawn to the U. S. Department of Agriculture Library and UNESCO book coupons are acceptable. Superintendent of Documents Coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored.

Scope of the Bibliography of Agriculture

The Bibliography of Agriculture is an index to the literature of agriculture and the related sciences received in the Library of the United States Department of Agriculture. For scientific and technical publications it is as complete as possible, but only selected popular publications are indexed. Publications from any country are indexed if they are in one of the languages of western Europe or in Russian, or if they have summaries or abstracts in one of those languages.

The table of contents on the preceding two pages shows the subject scope of the Bibliography in some detail. For the most part references on the processing of agricultural products are limited to those on primary processing. For example, spinning of textile fibers is included but not weaving and finishing.

In general, literature received more than a specified time after publication (six months for that from the United States and Canada, one year for that from other countries) is not indexed. Exceptions are made for important scientific publications. Unsigned articles and those signed with initials or pseudonyms are usually omitted, as are editorials, most letters to the editor, and columns appearing regularly.

J. H. Miner, C. D. Gustafson, G. A. Zentmyer, and W. A. Thorn, joint authors.
Phytophthora cinnamomi, causal organism.

36920 BYFORD, W. J. Seed dressings: an important development. Brit. Sugar Beet Rev. 29(3):119-120,122. Mar.1961. 66.8 B77
To prevent blackleg.

36921 CAMPACCI, C. A., and SANTOS, C. F. O. Fungicides for the control of "early blight" of potato. (In Portuguese.) São Paulo. Inst. Biol. Arq. 26:185-195. 1959. 442.9 Sa6
English summary.
Caused by Alternaria solani.

36922 CAPPELLINI, R. A. Field inoculations of forage legumes and temperature studies with isolates of Sclerotinia trifoliorum and Sclerotinia sclerotiorum. Plant Dis. Rptr. 44(11):862-864. Nov.15,1960. 1.9 P69P

36923 CAROSELLI, N. E. Verticillium wilt of smoke bush [Cotinus coggygria]. Plant Dis. Rptr. 45(1):24-25. Jan.15,1961. 1.9 P69P
Probably caused by Verticillium albo-atrum.

36924 CHAKRAVARTI, B. P. Pathogenic capabilities of the wheat stem rust fungus Puccinia graminis tritici in certain rust resistant and tolerant varieties of wheat. Diss. Abs. 21(7):1697-1698. Jan.1961. 241.8 M58

36925 CHAMBERS, S. C. Scald of barley. West. Austral. Dept. Agr. J. (ser.4)1(12):1129. Dec.1960. 23 W52J
Caused by Rhynchosporium secalis.
